Hi Bill, it would be great if you can update and send along what you have so I can take your and Cindy Schuster's comments and update the overall briefing. Thank you, and happy new year,

Lisa

Good Morning, Lisa.

I have a just released report from the Washington Sea Grant, which has several nuggets of info related to shellfish aquaculture's direct and indirect economic value to the state's economy, local jobs etc.

Just FYI for final round of pulling the content together for the House Ag Committee Hearing.

I can either wait till next version comes out from you, or, take what I've already written and given to you, but update with the info I have.

Please let me know your preference. Thanks.

Hi Lisa, great job at bringing three issues together, often not easy with this breadth of need.

Attached are my edits and suggestions; please note there are a few places I've called out where it looks like we'll need co-input from Gina and me on agric sector grants/spending.

I can handle those portions of DOH LO grants, and some of my direct coop agreements, that focus on AG BMP work and of course all things PIC, but, ECY LO Tox/Nuts grant also has some of these elements, as I recall. DOH does give some NEP money to ECY, I think I can cover that.

So, stand-by for more from me as indicated, and apologies in advance for any heavy-handed editing, I presume the goal is the crispier the better, so I reduced text/'plain-talked' wherever it looked OK to do so.

Hi all,

Here is a ROUGH CUT at a briefing paper for the Administrator. Definitely needs lots of scrubbing. **Please send comments to me by COB 1/5/16.**

As instructed, I tried to roll three issues into this one paper – riparian initiative; shellfish protection; and whatsupstream.com. The briefing, per Cindy's instructions, has 3 sections: key messages, background, and possible Q&As.

See what you think! Many thanks to Bill and Garth for providing content, and Cindy for providing direction.

Hi all (and thanks Garth, so glad you are 'aboard' with our Team),

Here's what I've got to-date. I had started this and was almost done when Lisa's note below came in.

I chatted with her this AM, noting that what I have now is Samish-centric since we started with the local, 'What's Upstream?' web-piece and all related

No worries. Lisa explained this (preparing briefing materials) will be iterative = what you see can easily be 'up-scaled' to have both Sound-wide AND as needed, Samish Bay only, pieces and parts.

I'm out tomorrow, but in 28th-31st to continue, so we should be in good shape for final product(s) by Jan 6.

Feliz Navidad!

Thanks so much, Garth!

Bill – in answer to your earlier question about process, if Peter agrees, I can take a shot at assembling your, my, and Garth's bullets into the fact sheet format Cindy Schuster provided and get a draft out to everyone prior to the January 6 Region 10 and OCIR deadline. The

fact sheets are due in the Administrator's briefing book on January 12.

Peter – are you okay with that?

So as discussed see the request for briefing papers below with a sample fact sheet included.

Garth will work on the talking points/background from the legal perspective on whatsapp and that can be added to what Lisa has already done (by Wed)

Bill is going to work on the Shellfish bed closure issue.

Lisa will work with Gina to provide a couple of points on the Riparian RFP.

Thank you all,

Peter

Subject: House Ag Hearing - Request for Briefing Papers

This is a request for the preparation of 3 briefing papers by January 6. The Administrator is scheduled to appear before the House Agriculture committee on Tues, Jan 26, to discuss EPA programs and regulations impacting agriculture. The national program offices are preparing most papers (listed below), and the regions are adding papers about regional issues that their members might bring up. For R10, we have 2 representatives and think that 3 topics might be raised:

Rep. DelBene—Puget Sound shellfish bed closures

Rep. Newhouse—WA WQS; Yakima groundwater and court cases

Attached is a sample fact sheet in the requested format: talking points, background, and expected Q and A. The connection with the member should be included, and I can help with that.

Kendra is checking for existing papers on WA WQS and shellfish and will send what she finds. The papers are due in the Administrator's briefing book on January 12; the January 6 date allows final review time here and at OCIR.

Thanks in advance for your help!
